

HONEYWELL

VERSATILIS TRANSMITTER

Multi-Variant Sensing

Honeywell Versatilis™ Transmitter is a multi-variant sensing platform based on the latest LoRaWAN® protocol communication technology. Its inherently low-power compact design coupled with quick & easy installation, and commission helps manufacturers to deploy them at scale with the lowest CAPEX and negligible OPEX. The transmitter is designed to monitor and predict the health of rotating equipment like motors, pumps, blowers, fans, compressors, and gearboxes. In addition, they can be deployed to remotely monitor the position of manual valves, the health of steam traps, and the surface temperature of static process equipment. They can also be deployed to monitor environmental conditions in life science facilities.

MEASUREMENT PARAMETERS:

Vibration	Audio Acoustics	Surface Temperature
Ambient Temperature	Humidity	Ambient Pressure

SENSORS AND COMMUNICATIONS:

The Honeywell Versatilis platform contains a suite of sensors encompassing versatile sensing parameters such as pressure, temperature, humidity, triaxial accelerometer, and audio acoustics MEMS to provide insightful measurements. Sensors on the platform are selected to cover a broad frequency spectrum enabling adequate sensing coverage of process and physical phenomena. Sensor fusion analysis on the acquired measurements can be performed. Any specific parameter is customizable in either software or hardware according to the requirement of a specific application. Each measured parameter contributes a unique dimension thereby augmenting the system into a multi-dimension sensing platform. Sensor data can be transferred over the LoRaWAN® network which is protected through secure key authentication. The Honeywell Versatilis Transmitter can be configured to notify the application through Event Triggers and FFT (Fast Fourier Transform) Triggers.

Figure 2– Assembly

FEATURES

PARAMETER	DESCRIPTION
Measuring Parameters	Vibration, Acoustics, Surface Temperature, Ambient Temperature, Humidity, and Ambient Pressure.
Measurement Interval (Sensor Parameters)	1 min to 60 min
Vibration Output data	RMS values (average), Kurtosis, Crest Factor, Skewness, FFT High energy samples (amplitude and frequency), and Sub-band Energy.
Vibration FFT no. of lines	4096 (1.8Hz resolution)
Vibration Raw data and Full spectrum FFT data are available through the configuration application for further analysis by the users.	
Velocity Measurement and range	Available as per ISO 10816-3, Range-> 0 to 100 mm/s
Triaxial Accelerometer	MEMS, +/- 16g, 2500Hz Bandwidth
Acoustic Sensor	Bandwidth 20 to 20 kHz Maximum 120 dB SPL
Acoustics FFT data is available through a configuration application for further user analysis.	
Surface Temperature	-40 °C to +80 °C (-40 °F to +176 °F)
Pressure Sensor	335 to 1100 hPa
Humidity	0 to 100 %RH
Edge Computing	RMS, FFT Calculations, Statistical Parameters, RPM, Vibrational statistical parameters, and Static Alarm thresholds ²
Operating Temperature	-40°C to +80°C (-40 °F to +176 °F)
Data over LoRaWAN	- Configurable publish rate of RMS Values, Kurtosis, Crest Factor, and Skewness. - Configurable publish rate of FFT (36 High energy amplitudes). - Configurable Sub-band (size 250Hz) Energy values.
Communication	2.4 GHz Bluetooth Low Energy. - LoRaWAN Class-A. For information, see “Honeywell Versatilis Transmitter LoRaWAN® Frequency and channel details”
Device LED Indication	Green & Red LEDs (for more information, see Honeywell Versatilis Transmitter User Guide, 34-VT-25-01).
Device Diagnostics	Battery status, Sensor Health
Battery life	- Up to 3 years with 5 mins sensor measurement interval and 30 mins LoRaWAN update. - Upto 5' years with 10 mins sensor measurement interval and 30 mins LoRaWAN update.
LoRaWAN Reporting Interval (all sensors data)	1min to 24 hours
Vibration Measurement duration	Acceleration RAW data – 2.2 seconds
Derived Parameters	Velocity and RPM
Physical Dimensions	W: 46 mm (1.81 Inches) x H: 100 mm (3.93 Inches)
Weight	180 grams (0.39 lb)
Mounting options	Adhesive adapter Magnetic adapter Screw mount adapter (M6 screw) Epoxy mount adapter
Data Logging	Capable of recording 20 days of data with the default configuration.
Data Security and Encryption	AES256 LoRa and BLE Encryption.
Firmware updates	Available through the Honeywell Versatilis™ Connect app.
Wireless range	BLE 25m Line of Sight (LOS) and LoRa 4km Line of Sight (LOS)
¹ Change in default parameters will affect the battery life accordingly.	
² There will be an impact on battery life based on the number of times the alarm condition is created.	

MEASUREMENT PARAMETERS - RANGE AND PERFORMANCE SPECIFICATIONS

SENSOR	RANGE	UNITS	ACCURACY
Ambient Pressure	335 to 1100 hPa	hPa	0.5% of span
Surface Temperature	-40 to +80 °C (-40 to +176 °F)	°C (°F)	+/- 3 °C
Humidity	0 to 100	%RH	+/- 3%
Ambient Temperature	-40 to +80 °C (-40 to +176 °F)	°C (°F)	+/- 2 °C
Audio Acoustics	20 to 20,000	Hz	
	Upto 120	dB SPL	+/- 3 dB SPL @ 1KHz
Triaxial Vibration/Acceleration	5 to 2500 (+/-16g)	Hz	+/- 1dB(*)
* With Screw Mount Adapter.			
Note: Sensors are pre-calibrated and do not require field calibration.

MOUNTING CONSIDERATIONS

Adapters: The Honeywell Versatilis™ Transmitter comes with a variety of mounting options.

The mounting options are magnetic adapter, adhesive adapter, screw mount adapter, and epoxy mount adapter.

Figure 4– Adapters

Adhesive Adapter - Attach to the target machine with sticky adapter face.

Figure 5– Adhesive mount

Magnetic Adapter - Attach to the machine with magnetic pull force.

Figure 6– Magnetic mount

Screw Mount Adapter – Preferred mounting for vibration and Surface Temperature applications. (M7 screw & nut arrangement to clamp on machine).

Figure 7 – Screw mount

Epoxy Mount Adapter – Attach to the target machine by applying epoxy-based adhesive on the adapter face.

Figure 8 – Epoxy mount

HONEYWELL VERSATILIS CONNECT - DEVICE CONFIGURATION APPLICATION

Honeywell Versatilis Connect is an intuitive application that can be installed on mobile devices and tablets running Android, Windows and iOS platforms. The application is compatible to work with the Honeywell Versatilis tablet.

Key Features:

- Secure log-on
- Connects via BLE
- Read and download real-time as well as historical data
- Graphical user interface
- Identify device as well as asset
- Bulk configuration
- FFT Spectrum visualization
- Connect and configure Honeywell Versatilis™ Transmitters in minutes.
